

## PUREFLO 28 SERIES SELF-PRIMING, HYGIENIC FLEXIBLE IMPELLER PUMPS

Pureflo 28 Series pumps from ITT Jabsco are widely used throughout the Food, Dairy, Beverage and Pharmaceutical industries. Inexpensive to buy and operate, their gentle pumping action effectively handles thin, viscous and particle-laden fluids.

Being self-priming, Pureflo 28 Series pumps may be mounted either above or below the source of liquid. Their simple construction makes them easy to select, use and service without specialist pump knowledge.

### TYPICAL APPLICATIONS

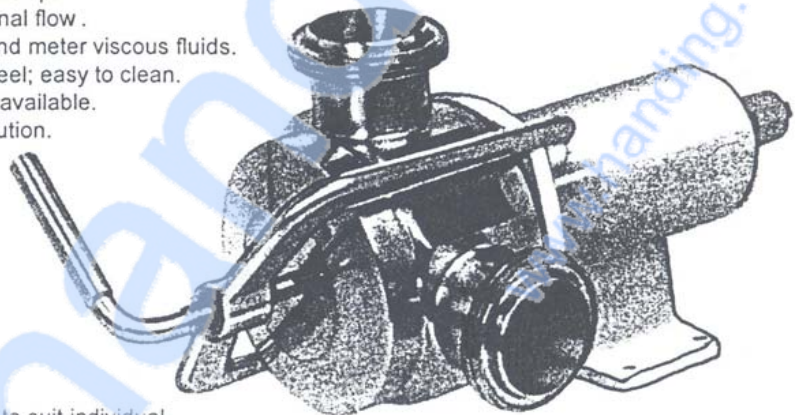

- Food Processing
- Ingredients and coatings
- Dairy farms and tankers
- Personal care products
- Brewing and soft drinks
- Transfer
- Recirculation
- Sampling
- Filtration
- Filling

### PRINCIPAL BENEFITS

- Inexpensive to buy, use and service.
- Truly self-priming, even from dry start-up.
- Gentle pumping action; two-directional flow.
- Positive Displacement; can pump and meter viscous fluids.
- Hygienic design in 316 Stainless Steel; easy to clean.
- Models authorised by US 3A board available.
- Worldwide pump and spares distribution.

### PUMP SIZE

Pump Size	370
Ports	2"
Max Speed (rpm)	1500
Max flow (l/min)	320
at 1 bar	

### MODEL VARIATIONS

A wide range of variations is available to suit individual applications:

**Pedestal Pumps:** for baseplate mounting either direct coupled to motor/gearbox or belt-driven. Cover a wide pressure range and allow speed to be matched to flow required.

- Pump Size 370: 1.0 bar.

**Shaft Seals:** to seal most fluids:

- Carbon/Ceramic mechanical face seal.
- Tungsten Carbide hard face seal for abrasive fluids.
- Flushed Options for crystallising fluids.

**Impeller Materials:** to pump most fluids:

- 3A Hygienic Neoprene: 4° to 65°C.
- 3A Hygienic Oil Resistant: 20° to 90°C.
- Higher temperatures are acceptable for short periods e.g. during in-place cleaning.

Other materials and specifications available to special order from your distributor. See inside back page for details of availability.
