PERFORMANCE The curves and data given here are based on typical values when pumping a clean, stable, 100cps liquid at temperatures up to 70°C. Characteristics will alter with changes of viscosity, pressure, temperature and pump speed. SSP's team of qualified engineers can advise on pump selection and system design wherever required.

	AP125
Gearcase Oil Capacity (litre)	0.28
Approximate Weight Bare Shaft (kg)	22.7
